

## Current Areas of Litigation

If you or someone you love has suffered serious harm as a result of a defective medical device or a defective drug, you may be eligible for a potential defective drug settlement.\* We want to hear from you today. Contact the Simmons Law Firm today for free legal consultation. We have caring and experienced medical device/defective drug lawyers who can evaluate your case, answer your questions, and help you understand your legal rights, including the filing of a medical device or pharmaceutical litigation.

When people have been injured by defective drugs or medical devices, the Simmons Law Firm has helped them stand up, speak out, and get the compensation they deserve. We have a team of experienced pharmaceutical lawyers that can handle your case and help you navigate the complicated world of pharmaceutical litigation.

### Our Experience and Success

Today, the Simmons firm continues to work on the front lines of several groundbreaking pharmaceutical trials, including several on a national stage. We have represented thousands of pharmaceutical clients and recovered nearly \$230 million in verdicts and settlements.\*

Our experience in litigating complex medical matters allows us to take a leadership role in standing up for individuals who have been injured by dangerous or defective drugs and medical devices. In medical device and pharmaceutical litigation, our success comes from our thorough understanding of our clients' particular medical history, weighed against the manufacturers' legal obligations for testing, warnings and labels.

**While our experience in potential medical dangers versus manufacturer's liability allows us to handle any pharmaceutical litigation or defective medical device**
